rinh Aiready Suspended by the National Board-Fallure to Pay Debts and Dues the Reason-New York and Brooklyn Players Ricking Over Salaries-Gossip.

In all probability the St. Louis Baseball Club will be expelled from membership in the National League and American Association at the eeting to be held at the Fifth Avenue Hotel This action might have been taken by the Board of Directors last night but for a slight hitch which compelled that body to let the matter go over. As it is, the St. Louis Club has already been suspended from enjoying the privileges under the national agreement, the Board of Arbitration having so seemed after a long session resterday. The expulsion of the club can be accomplished by a three-fourths vote of the League, and will go into effect because of debts and obligations that cannot be paid. This is the first step toward landing Robison's Clevelands in St. Louis, and may be a preliminary move to the ultimate establishment of an eight-clubcircuit.

Chris Von der Ahe, who has been vainly fighting in the courts for what he terms his rights, ons not present, but had sent his proxy by wire o.F. A. Abell of the Brooklyn Club, who deplined to hold it, on the ground that You der Ahe had no standing in the League, and therefore could not gain adn to the deliberations of the magnates. The legal representative of the St. Louis Club was B. S. Muckenfuss, who was recognized as such at the last meeting of the League in De-He was on hand and proved to the megnates that the St. Louis Club was in-

As the St. Louis muddle was in such shape that it had to be settled one way or another before the League could proceed with its regular business, the Board of Arbitration cent into session at 4 o'clock yesterday atternoon, after an unusual amount of obbying in the corridors. Those present were John T. Brush, Cincinnati; James A. Hart, Chicago: A. H. Soden, Boston: John I. Bogers, Philadelphia; Frank de Haas Robison, Cleveland, and N. E. Young, Chairman. After talking the situation over for three hours the adopted by a unanimous vote the

The vote on this resolution was unanimous. The proceeding was preliminary to a more serious move by the Board of Directors, who went into session shortly after the National Board adjectined. Those who attended this conclave were Brush, Hart, Soden, Reach Wagner and N. F. Young, who had no vote. Muckenfuss admitted the St. Louis Clubs lattice to comply with the order of the Board of Directors at the last meeting to pay to the Chicago Club \$1,000 for the release of Player Decker, and also admitted the club's indebtedness to the League in the sum of \$1,153 for dues and assessments. The Treasurer made a formal demand for the payment of the above indebtedness and it was refused. There was a long wrangle, in which it is said that Resen succeeded in lobding up the beand with the idea of getting some concession from Soden, Hart and Brush that would result in the resentablishment of the 25-cent gate teccipits tariff in Philadelphia, At 11,30 oclock last night it was finally decided by a manimous vote to refer the uniter to the League for final action. Brooklyn Club will be the most expensive in the League.

Nearly all of the magnates continued to make the statement that there will be no reduction in the present circuit this year. From an authentic source it was learned that a schedule for twelve clubs will be adopted at this meeting, but that if things can be worked right a special meeting of the League will be held here on or about the lat of April, when the League membership may be reduced to ten cities if not to eight. The St. Louis mix-up is the other obstacle to the successful culmination of the plan as outlined by leading magnates, and until that is settled definite action is impossible.

impossible. From indications that prevail, it looks like a Total shot that the Brush measure to increase the power of the Board of Discipline will go through with a rush, although some of the more narrow-minded delegates continue to say that they are opposed to it. The situation has been pretty thoroughly canvassed, and it is safe to say that nine out of the twelve clush were ready to vote in favor of the measure last make.

The League did not convene as a body at all restriction, but the delegates are to be called together this morning. The New York Club will be represented by Soden again, as at the last meeting, Freedman declining to attend the meeting or to allow Mr. Day to represent him.

Junius L. Cope, the honorary Secretary of the British Chess Club, writes under date of Feb. 17 to Dr. Broughton from London that he has been requested by the Oxford and Cambridge University chess clubs to make the necessary arrangements for carrying out the proposed match between the British and American universities, and he also officially informs Dr. Broughton that Oxford and Cambridge are prepared to accept the conditions in the challenge by the Americans with the following alternations: lowing alterations:

the challenge by the Americans with the following alternations:

The teams to consist of aix players a side. Players to be native born in the country for which they play, and eligible for the intervarying matches between Orford and Cambridge in England and the intercollegiate tournaments in the United States, provided that no player shall be eligible who is more than five years beyond his matriculation.

The date of the match to be April 21, and, if necessary, April 22.

The rules of the American and British chess codes, which are identical, to govern the contest.

As Dr. Emanuel Lasker has declined to act as adjudicator in the match between America and England, and owing to many engagements which will likely cause him to decline the position of referee in the university contest, the Englishmen suggest either Baron Albert de Rothschild, M. Tschigorin or Dr. Tarrasch for that place.

LOUISYILLE, Feb. 28.—Mr. S. De Ritter of New York has began suit against Robert S. Strader, who has been training De Ritter's string of horses. Some time ago the men had a difficulty, and Strader was asked to surrender the horses and other belongings to Mr. De Ritter, He refused, and to-day the Sheriff took possession of the entire stable. Mr. De Ritter also sues for damages, charging unlawful detention of stock. In the stable are Prince of India, 2:154; Aley C., and a number of other well-known trotting horses. The suit created a sensation among Louisville horsemen because of the prominence of the parties involved.

Blizzard Bound Furniture

Will Make March the Greatest of All Furniture Months.

We made extraordinary preparations for our February furniture Sale only to have been met by irresistible natural forces which overcame our best calculations. Many have been the inquiries "What about your regular February Furniture The above explains why we didn't But what may have been your loss in waiting

will now be your gain in saving. There's al-

ways a reason for giving prices that are money losing or very near it, else the announcement is very much like a fake. Gaps which of necessity would have been made by our Annual Sale we had already arranged to fill by large purchases for March. These new things are even now crowding upon us, and carloads upon carloads of the

February and March goods are meeting here together. A state of congestion is bound to happen unless we can sell quickly. We must have room at once, and so make larger savings for you in this March Sale than we ever have done.

A Reduction of 25 to 50% From Regular Prices

will be made, commencing to-morrow. All the pieces, at these extreme reductions, will be marked with a red ticket, enabling you to look through the great exhibit (the like of which hasn't been seen before) at your leisure, and be waited upon at any time you wish. But this sale will be famous because of the great variety and originality of the furniture as

well as the economy it will bring you. The collection embraces every sort, the newest and the most handsome, the splendidly made, the most artistic, the useful, the most decorative. We never had a larger assortment of beautiful pieces.

For instance, in Library and Parlor Tables alone, we have more than two carloads of the

most exclusive, graceful and unusual tables made. But we haven't space to go into detail now, later we will give you more individual description of the elaborate pieces, but the present is the best time to take advantage of the sale in all its fullness.

NEWS OF THE WHEELMEN.

Chief Consul Belding Issues a Statement on the Sidepath Bill.

There was a great stir at the headquarters o yesterday after news had been received that opposition to the Ellsworth Sidepath bill. Ac ording to the official statements, the character and construction of the bill has been misunder stood. Chief Consul Belding issued a signed statement setting forth the purpose of the bill, of which the following is an excerpt: The bill was drawn pursuant to a resolution unan

mously adopted at the annual meeting of the Board of Officers of the New York State Division, L. A. W., held in Rochester, Dec. 17, 1898, by the Chairman of the Sidepath Committee of the New York State Division, L. A. W., John D. Chism, Jr., of Albany, and is based on the experience of the past two years and is based on the experience of the past two years in Niagara county and the past year in Albany and Wonroe counties. It permits any county to organize a commission to raise funds for building these paths, but does not compel this work. It is designed to enable cyclists to construct aide cycle paths through country districts where the wagonways are unfit for cycling. In the pursuit of this object the Elisworth till makes a very sensible and just provision that cyclists who use these paths shall not do so at the expense of other cyclists who contribute the money for constructing and maintaining them. In other words, the bill aims to provise benefits evenly among those cyclists by whom they are sunjuyed.

The licenies fee established by the provisions of this bill is in no sense a "class tax." The riders and drivers of all other vehicles are excluded from the next of these cycles paths, and for this reason are not even permitted to pay a license fee. Siecual lays providing for sudepath commissions in several countries are now in our statute books, and these contries are now in our statute books, and these even permitted to pay a license fee. Special laws providing for sidepath commissions in several counties are now in our statute books, and these laws in offect will require a cyclist using the paths in these countries to obtain several idenses unless the Ellsworth bill should become a law in which case the entire State will be subject to one general provision and the requirements will be greatly simplified and male uniform. While advocating the passage of the Sidepath bill the 1. A.W. has not ceased in its effects for good reads. From the time of its organization the League has spent many thousands of dollars to advance the cause of road improvement, and has printed and circulated over 2,000,000 numphlets and magazines devoted to this subject. At the annual meeting of the division fleared of Officers (ov. Researcht was requested to recommend, and the Leagual are requested to make an appropriation of \$1,000,000 for carrying out the provisions of the Good Roads law during the year 1850.

Ex-President 1. B. Potter of the L. A. W. has studied the bill carefully and, expresses a legal opinion that its intent is plain, although there is no explicit provision concerning tourists. Section 4 of the bill reads:

Very such license to be valid must be issued by the Commissioners of the county wherein the birgals; resides, except that any hoperies where there is no sidepath commission may seems a license in any county where a sidepath commission is organized in the county where such tessor resides, and no longer. No person shall ride a birycle on any sidepath commission has been lawfully appointed by a board of supervisors or a county index, and such license shall be valid for the use of the person so purchasing, till a sidepath commission is organized in the county ywhere such tessor resides or for the calendar year for which it is issued, and no longer. No person shall rides he where the resides or for the surface of the left side of the lower tube of such birycle.

The National Cycling Association found a

of the lower tube of such bicycle.

The National Cycling Association found a "mare's nest" yesterday and conceived a plan to convert it into ammunition to be used in its battle against the L. A. W. One of the officials of the "outlaw" organization, the only one who is imparting to it the appearance of being alive, discovered orthought he discovered that the L. A. W. Raeing Board was granting sanctions to organizations which had been refused by the A. A. U. The official referred to immediately saw "a pretty mess" for the L. A. W. and made haste to confide his discovery to the reporters. He said:

"All the athictle organizations in Buffalo are independent of the A. A. U. and hold their games without reference to it. The military athletic clubs are also outside the A. A. U. and if the L. A. W. grants a sanction for cycle races to any of them it violates the terms of its alliance with the A. A. U. Now the Sixty-fifth Regiment of Buffalo has been giving a series of athletic meets at which cycle races have been a feature, and I see by the bulletin of Chairman Mott of the L. A. W. Raeing Board that he has granted a sanction for the cycling. This was a serious matter if true. The "if," This was a serious matter if true. The "if," however, will blight the glee of the N. C. A. officials, for it was learned subsequently from the Sewiarry of the A. A. U. that the Sixty-fifth Regiment A. A. has returned to the A. A. U. and is holding its game under A. A. U. rules.

President Keenan has not as yet mentioned the name of the man who will be Chairman of

and is holding its game under A. A. U. rules.

President Keenan has not as yet mentioned the name of the man who will be Chairman of the L. A. W. Racing Board, but persons in the city who are in his confidence are responsible for a report that Fred. Gerlach of Chicago will be selected. Gerlach was a member of the National Racing Board in 1855, when George D. Gideon was Chairman. The New York member, it has been confidently understood all along, will be George L. McCarthy, the present handicapper for the State. C. W. Mears of Cleveland, who was to be the Chairman, found that his business obligations would not permit him to accept, and it is because of his withdrawal from the field that the appointment has been delayed. Mears, it is expected, will be a momber of the board. Henry Hobinson of Boston is also mentioned by those professing to know the President's plans as a member.

New Haven, Feb. 28.—The Yale freshman football management made public to-day its financial report for last year. The receipts amounted to \$2.201, and after paying all bills there was a balance of \$20s that goes to the freshman may. The receipts included the sum of \$1.637 raised by subscription in the freshman class, \$301 in gate receipts and \$255 in guarantees.
